

IndyLogic's Online Meeting is a powerful online meeting solution built for businesses of all sizes and now, it's better than ever. With high quality HD video and audio, a brand-new mobile experience, interactive collaboration tools and artificial intelligence capabilities, Online Meeting transforms your online meetings into smarter, faster, engaging and more actionable meeting experiences.

- **NEW DESIGN:** A new, intuitive, and sleeker user interface for a more delightful online meeting experience.
- **BETTER VIDEO QUALITY:** Improved (720P) HD video quality for crystal clear visuals, and new dynamic visual layouts.
- **BRAND NEW MOBILE APPS:** Completely rebuilt iOS and Android apps providing best-in-class video and audio quality.
- **AI-BASED TRANSCRIPTS & INSIGHTS:** Meeting transcriptions and action items are now automatically captured as part of every recorded meeting using our new Meeting Transcripts and Insights tool. (Pro feature only) [Learn more here.](#)
- **PRESENTER ANNOTATION:** Presenters can now easily call out important points on their screen share in-real time. (Available for Presenters using the Online Meeting Desktop Application only).

The best part? Your users have already been migrated to this new experience at no additional cost.
